DETAILED ACTION

Response to Amendment

1. This Office Action is in response to the amendment filed July 28, 2009. Claims 1 and 4 have been amended. Claims 2, 3, and 5 have been cancelled. Claims 1 and 4 are pending and are rejected finally for the reasons given below.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Lane (US 6,569,564).

Lane teaches a button cell battery having a pair of container members, (13) and (14), surrounding an electrochemical element having a pair of electrode layers, (16) and (18) (Figure 4). Lane further teaches that one end part of one container member (13) is sealed by causing an end part to crimp an end part of the other container member (14) (Figure 4; column 4 lines 42-45).

A gasket (32) of insulating, sealing epoxy is taught between the container members (column 3 lines 57-67). No other gasket or material is taught between the container members.

Lane fails to explicitly teach that the epoxy is adhesive, yet the skilled artisan would easily recognize that this is an inherent material property, for example in light of Applicant's disclosure at [0035].

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 4 have been considered but are moot in view of the new grounds of rejection, see above, as necessitated by the amendment.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
